

**MEMO****NEW JERSEY STATE DEPARTMENT OF ENVIRONMENTAL PROTECTION**

TO FILE #12-16-01 DATE 12-12-89
FROM Pete Taylor through Wolf Skacel
SUBJECT Chevron USA, Incorporated Corporation, 1200 State St., Perth Amboy, NJ

On December 8, 1989 I conducted a compliance inspection at Chevron USA. Mr. Hannigan, Chevron Environmental Coordinator, and myself inspected the hazardous waste storage area. The old dumpster is no longer used. A closed box container is now used for hazardous waste storage.

I also inspected their training program. This has also been brought up to date. All Chevron personnel at the facility have been trained as per RCRA regulations.

Mr. Hannigan said that he was looking into the reason that their EPA ID Number is listed under Linden Pipe. He thought that at one time Chevron owned Linden Pipe. He said that he will investigate the matter and make the necessary corrections and would inform the Department of the outcome.

CONCLUSIONS:

All violations found during the RCRA inspection on 9/28/89 have been corrected.

RECOMMENDATIONS:

I recommend no further action on this matter.

P.T.
